

Initiative	PeopleSoft Financials
Description	Implement PeopleSoft Financials suite in all agencies under the direction of the Governor. Includes Accounts Payable, Procurement, E-Procurement, Accounts Receivable, Billing, Inventory, Asset Management, General Ledger, & Project Costing. Enable the State to manage its financial transaction over a common system and a single database. Provides for savings in training, maintenance and infrastructure costs.
Support of goal(s)	<p>2. Collaboration: This financials application is being leveraged across all state agencies.</p> <p>4. Common Solutions: The application is centrally supported and used by many agencies.</p> <p>5. Continuous Improvement: The integration of financials with other processes, such as procurement and time reporting, provides an improved service and workflow throughout state government.</p>
Person / agency responsible	Jeff Underwood, and GMIS Team
Other agencies / areas involved	State Board of Accounts, Auditor of State
Milestones and completion date	Dependent upon available funding.
